

**Georgia Project for Assistive Technology**  
**Assistive Technology Consideration Resource Guide**

**This is a companion document to the GPAT Assistive Technology Consideration Process Guide to assist IEP teams by providing examples of each area within the AT Consideration Process Guide. Each column contains general examples for each area but is not considered all inclusive. Remember that others who are not familiar with the student may refer to this document to provide supports.**

**Assistive Technology Services** – applies to all instructional and/or access areas.

- Activities that help teams select, acquire and/or provide technical assistance in the use of assistive technology devices
  - Assistive Technology Evaluation of the student
  - Acquisition of AT - purchasing or leasing
  - Selecting, designing, fitting, customizing, adapting, applying, maintaining, replacing, and/or repairing AT devices
  - Coordinating and using other therapies, interventions or services with AT devices
  - Training or technical assistance for student or student’s family
  - Training or technical assistance for professionals, employees or others who are involved with the student

**Useful Notes for Using this Resource Guide**

**Column A:** Relates to basic instructional tasks which support the Common Core Georgia Performance Standards (CCGPS) and/or other tasks

**Column B:** Standard classroom materials available for student use (listed in alphabetical order)

**Column C:** Accommodations, modifications and/or strategies (listed in alphabetical order)

**Column D:** Potential Assistive Technology solutions (corresponds to Columns D and E on the GPAT Consideration Process Guide)
